Jordan joined NRG Realty Group in May 2024 to oversee the implementation and growth of the Real Estate Management Division. Throughout his career, Jordan has managed approximately \$750 million in assets across all classes including single family, multifamily, office, retail, and industrial commercial real estate. While leading our Property, Construction, and Project Management teams, Jordan focuses on providing financial and operational efficiency for NRG clients. Jordan's comprehensive knowledge and understanding of the full asset lifecycle allows him to effectively provide industry leading operations and management services.

Jordan graduated from Baylor University with his B.B.A in Business Management and Business Marketing. Jordan grew up in Houston, TX and moved to Dallas, TX prior to starting his career for a Fortune 500 Multifamily REIT. If he's not working, Jordan can be found spending time with his friends and family, likely on a golf course.

justin@nrgrealtygroup.com

Justin founded NRG Realty Group in February of 2015 to fill the need of a professional commercial real estate company that specializes in the shale play markets. Since founding NRG, Justin has brokered over 400 office and industrial deals for energy-related clients in every major US shale play valued at over \$300,000,000. Prior to NRG, he worked for a turnkey brokerage, development, and construction company that focused on the energy sector. His primary roles were business development and brokerage, but also managing client's projects through the acquisition, design, and construction scope.

Justin is a lifelong Texan whose experience in the oilfield started from day one. His father worked in exploration and production and would often take him to visit well sites during his youth. These trips to rural locations started the passion for the oil and gas industry that Justin carries with him today. He is a graduate of Baylor University with a degree in Real Estate & Finance (Sic'Em Bears!) and enjoys spending time with his wife and four kids.
